Comments /notes on tonight's mission and this interpretation: <ul style="list-style-type: none"> Started with 08/30/2016 new incident fire perimeter downloaded from NIFC ftp site. Only heat perimeter growth was on south side of fire between section 35 and 36 and had some intense heat. There was scattered heat in several places in the center and southern part of the fire with one small area of intense in the northwest quarter of section 35.
